

Puria Radmard – Environmental and Domestic Officer

GOALS FOR THE YEAR

LENT 2019

Goals	Progress
Set up some serious considered progress towards college divestment from fossil fuels.	<p>I talked at the Responsible Investment Forum in the Master's Lodge on 19/2/19 to ~80 people. Following up lobbying with lettering and proposals is an ongoing process.</p> <p>I hosted a Divestment Discussion workshop in the BBJCR to help spread awareness and understanding.</p> <p>I gathered signatures from fellows in the college, in others to support a Regent House Grace for a University-wide divestment working group.</p> <p>Proposed and planning a freshers week/week 1 event next year alongside Women's Officer and BME Officer to promote the presence of political societies and movements that students can get involved with.</p>
Get a full report of ingredients used by catering; publicize sustainability of certain materials, and help locate closer sources of ingredients (i.e. with Europe/North Africa etc.) if possible.	<p>Set up a meeting between Catering and Foodsteps (an organisation working with the UCS and several other colleges at the moment), to lobby towards implement labelling on hall food based on its environmental impact.</p> <p>Meeting on 14/3/19.</p>
Set up a foodbank system as requested by CU Foodbank Society.	<p>Discussed locations and logistics at meeting, but since then CUFS has been contacted and unresponsive.</p>
Recycle leftover fresher's t-shirts.	<p>A work in progress.</p>

EASTER 2019

Goals	Progress
Liaison with works department on possibility of replacing baths with showers in accommodation. Start a proposal, or work towards a consideration of solar panels on modern Burrell's Field buildings, or nearby for the path lights.	

MICHAELMAS 2019

Goals	Progress
