The president opens by thanking the committee for their work during Freshers' week, and the general feeling among committee is that the week was a great success. The focus of the meeting is to provide feedback on all the events over the course of the week.

The overall feedback points from International Freshers' Week:

- Budget too low so in order to avoid events being underfunded, budget should be capped on certain nights and then spill-over used for other events.
- Events with greatest attendance were film nights and welfare tea.
- Put up schedule for night-time punting to prevent numbers issues of allocating punts to people, also using a sign-up process.

The overall feedback points from International Freshers' Week:

- Need BA reps to welcome Freshers' in, on events that concern their students throughout the week.
- A discussion with the BA Society is required about the fair sharing of responsibility for events throughout the week, and whether attendance
- Sign in attendance in workshops
- Night time punting needs an overhaul - more volunteers required.
- Sign-ups for TCSU+ need to be monitored, so that people can not opt out directly before events
