## **Addendum**

The TCSU executive would like to express its disappointment in relation to coverage of our recent emergency open meeting on vacation storage by the Tab.

The meeting was the first of its kind in a long time, brought by the presentation of 20 TCSU members' signatures to the president in accordance with Section 5 of the constitution. It saw a true cross-section of Trinity come together to consider a matter which had been under discussion for over a year, and the committee would like to thank everybody who attended and contributed.

The committee regrets certain aspects of how the Tab reported this meeting. In particular:

- What was recorded in the minutes as a mere show of hands to indicate interest in the Junior Bursar's proposals was construed as a binding vote - though this was amended on request.
- While there was discussion amongst attendees in relation to the metrics by which the vacation storage scheme should be evaluated, the motion proposed passed with 26 in favour and 1 against.
- We do not wish for this highly successful and engaging meeting to be used as part of an ad hominem media campaign against a candidate standing for the CUSU Presidency. The TCSU exists to promote the general welfare of its members, inter alia. We are anxious to ensure that coverage of the meeting as it currently stands should not distract from this aim.

The committee would like to express its thanks for former TCSU President Cornelius Roemer's advice and work on vacation storage as an issue within college. Without both his efforts and those of the 2015/16 committee more broadly, we would not be in a position to move into a trial period as we are for the coming Easter vacation.

The TCSU remains neutral in relation to the CUSU elections and wishes candidates all the best.
