Max Smith for Webmaster

- **Proposer:** Jakob Alwall (TCSU Webmaster 22-23)
- **Seconder:** Mario Pariona (CompSci student)

Who am I?

I'm Max (he/him), a second-year student studying Computer Science. I'll use what I've learnt on my course to keep the TCSU website up-to-date and the mailing lists working properly.

What do I want to achieve?

- Make the TCSU's website load faster (it currently takes over 3 seconds)
- Ensure the information on the TCSU website is fully accurate (e.g. at the time of writing, a lot of the Welfare pages currently give outdated names for committee members)
- Make the website easier to navigate and improve its compliance with accessibility standards like WCAG
