

# President – Emily Song

---

## GOALS FOR THE YEAR

---

I will be responsible for managing and coordinating the Committee to ensure that everyone achieves as much as they can as their individual roles while abiding by the Constitution, as well as together as a whole Committee. I will also represent Trinity Undergraduates on a university-wide level to make sure our students' opinions are heard. I will make sure that we make progress on our ongoing projects, as well as carrying out the wishes of the general body as far as possible.

This year, I aim to increase communication and integration across different levels of College – between the undergraduate student body, TCSU, and College staff. I also aim to increase the availability of and accessibility to both working and non-working student spaces around Trinity.

---

## LENT 2019

---

Goals	Progress
Facilitate Committee members' aims and ensure the smooth running of the team	The new Committee members have entered their roles with enthusiasm and great ideas. This has made it easy to ensure the smooth functioning of the Committee as a whole.
Identify the key concerns of undergraduates, in order to target these in our work over the next year	We have looked into the results from the TCSU survey and have identified a number of things we would like to start work on this year. For example, discussions on improvements to the gym have started. We have also made sure to collect feedback on changes we have made and TCSU activities, such as on activities throughout LGBT+ History Month.
Increase the visibility of TCSU activities	This term we have introduced the weekly TCSU newsletter which provides undergraduates with updates from Committee, as well as a summary of events we are running throughout the week. Additionally, we are pushing to increase communication with students on their year abroad, with a bi-termly update of key things happening around Trinity.

Begin to increase integration between different members of College	Within the weekly TCSU newsletter is a section on a member of college staff, which helps to break down barriers between staff and students. This entails a short biography by the member of staff.
--	--

The handover this term has been a smooth and successful transition, thanks to our handover documents and high levels of communication between last year's committee and ours. The new committee members have settled into their roles well and have achieved a vast amount in their first couple of months. Lent term has seen a mixture of achievements from last year and this year. This has included a number of activities related to LGBT+ History Month, namely having the LGBT+ flag in front of Trinity on the first and last day of the month, as well as the formal. Additionally, Blue Boar common room is now bookable, giving students easy accessibility to a useful and previously underused space in college. Progress made this term is described in more detail in individual committee reports. We look forward to continue to make progress next term.
