HARRY FOR ACCESS

COMMUNITY

UNDERSTANDING

EMBRACING DIVERSITY

Who Am I?

- **Hallo!** My name is Harry Devlin and I'm a second year English student.
- I come from an old mining town called Stanley where **most people can hardly dream** of coming to an educational institution like Trinity College Cambridge
- I understand that not only do **we have to go to prospective students** but we need **upheld commitment** as well as recognition of our **different access needs**.

My Experience

- I used to **volunteer** at my local youth club where I worked with an **array of young people** to **develop new skills** and **offer support**.
- I was involved with a Northern outreach initiative for the competition **Debating Matters** as well as a scheme for **teaching young people public speaking skills**, called **Your Voice, Your Say**.
- I am currently the **academic rep** for the English Faculty at the **Student Union**. My work is focused on creating a **stronger dialogue between students and our faculty**.

I Will:

- **Centralise bursary and financial aid related information** to **distribute effectively to students** and **hold college accountable** for their **visibility and engagement** with these resources.
- **Establish an Access Committee** - so students **feel comfortable seeking help at any time**.
- Run **Open Invitation Access Meetings** - A place to chill, chat with other students or myself and to show **support for access concerns**.
- Work closely with the **Mental Health and Disability Officer** as well as the **BME Officer** to ensure **information is accessible** and student's **diverse access needs** are accounted for.
- Bolster our **great Ambassador scheme** through working with the **School Liaison Officer, Outreach Coordinator and Director of Admissions** to ensure **Trinity is doing as much as possible** to reach out to prospective students and **prepare for their needs**.
