

George Hargreaves  
Male Welfare Officer

Proposer: Ben Clark (Vice President 2020/21)  
Second: Menan Loganathan (Vice President 2021/22)

About me: Hi, I'm George and I am a first year law undergraduate. I am running for this position, because I feel like university is a place of overwhelming change in a young person's life, and I believe that Trinity College should therefore support everyone in every possible way (perhaps starting with working WiFi in rooms!).

#### Experience and qualifications:

- Whilst only speaking English (thank you Sasha!), I believe I am a good communicator, having held leadership roles both in sports clubs and at school, and am committed to ensuring an inclusive environment at our college.
- I am committed to ensuring that Trinity remains head and shoulders above the other colleges (especially J\*hns), and this begins with the students. Ensuring student welfare will always be the top priority.
- I am happy to use my (very limited, just ask Ben Spagnolo) lawyering skills to argue with the college for the benefit of the student

#### Ideas for welfare:

- Growing social media accounts, whilst introducing anonymous methods of communication to encourage people to speak out.
- Continue running welfare tea to encourage a social and happy working environment.
- To have weekly drop-in sessions where people can come to air concerns and propose change.
- To maintain an active dialogue with the college to ensure that they put welfare first.
- To encourage attendance at welfare workshops.
- More intercollegiate social activities (Karaoke, Movie Nights), encouraging inclusivity.
- Introducing a better COVID support system, maintaining a sense of community whilst one is trapped in their room. This would be in the form of socially distanced socialising, as well as dropping supplies.
- Introducing more college family events, fostering a family feel within college and encouraging friendships in other years.
- Continuing the tradition of week 5 chocolate!!!
