

Keziah Prescod

Women and Non-binary Students' Representative

Hi! I am Keziah (they/them), a first year MMLer from Birmingham.

Living as a female-presenting non-binary person, I know that life for women and non-binary people is not always simple. I have become versed in advocating for my rights on both a personal level and institutional one, having been Head Girl during Sixth Form and acted as founding chair of the students' Inclusion, Diversity, Equality and Activism Committee across an academy group of schools in Birmingham.

**Proposed by: Phoebe Hall (WNB officer
2022-23)**

Seconded by: Emmy Charalambous

What I will do:

- Organise WNB teas where women and non-binary students at Trinity can meet each other and create a sense of community
- Collaborate with the rest of the TCSU to put together intersectional events, allowing all students to celebrate different aspects of their identities
- Work with College to provide resources, such as whistles and headlights, to students who feel that they need them
- Begin termly night walks to allow students of all genders to feel safe walking outside at night
 - Campaign for improved lighting in College
- Put together speedfriending opportunities to allow women and non-binary students of all ages to connect across the college
- Organise an exhibition where women and non-binary people can share their stories, similar to that of Black History Month
