ABOUT ME

Hello! I'm Philippa, a second-year bio NatSci. Having lived in Greece all my life, I appreciate the struggle of moving to - and having to stay in - a completely different environment.

I will strive to make Trinity feel like home and your transition to the UK smoother. I want everyone to feel welcome and safe in knowing that there is support available.

I really enjoy meeting people and planning events (have been TCSS event's Officer). I am very approachable and always happy to have a chat!
